

**Quality, Security, Safety, Occupational Health, Environment,
and Business Continuity Policy**

Global Green Chemicals Public Company Limited (GGC) aspires to be the Leading International Chemical Company that harnesses innovation and environmentally friendly technology in striving towards becoming the role model organization that constantly develops and sustainably grows with determined responsibility to the economy, society, and environment in which we are present. GGC is committed to continually enhancing our effectiveness in the management of Quality, Security, Safety, Occupational Health, the Environment, and Business Continuity. This policy covers the entire operation of the Company involving all executives, employees, related personnel at all levels, vendors, and contractors, and adheres to the following principles:

1. Observe and adhere to legal requirements in Quality, Security, Safety, Occupational Health, the Environment, and Business Continuity, as well as international standards, rules, regulations, and related requirements.
2. Manage Quality throughout the entire organization by employing Quality, Knowledge, and Productivity Management tools, to satisfy our customers' requirements while advancing innovations that are environmentally friendly.
3. Manage risks to prevent hazards, work-related illnesses, loss from accidents, injuries, property damages, and promoting personal safety and a B-CAREs Safety Culture, as well as Process Safety Management (PSM), to assure and care for the Safety of all.
4. Exercise awareness and alertness for security threats and setting up emergency management guidelines to protect the lives of company staff, assets, information, and business continuity.
5. Exercise due care in occupational health and work-place environment and promoting a good health and work-life balance.

6. Identify, evaluate, analyze, prioritize environmental issues, and develop action plans for the prevention and reduce detriment to the environment and ecosystem, preserve biodiversity via an integrated environment management system encompassing energy, air, water, and waste management, as well as efficient and sustainable resources utilization in accordance with Circular Economy principles, to optimize resources utilization throughout the supply chain. Maintain efficiency in reduction of greenhouse gasses and improving adaptation to climate change with intent on reducing net greenhouse gas emissions to zero (net zero) by 2050. And Strengthen environmental care culture by communicating to encourage employees and stakeholders aware and support company's environmental culture.

Executives, employees, related persons at all levels, vendors and contractors must be accountable for achieving objectives and goals of GGC, as well as being a role model in the development and perpetuation of the Quality, Security, Safety, Occupational Health, Environmental, and Business Continuity Management System. Sufficient resources shall be provided to enable participation and contribution by all executives, employees, related personnel at all levels, vendors and contractors, in the adoption of policies and putting them into action through development and training, or communicating these policies to all related parties to achieve internal and intra-organizational collaboration, for the sustainability of the organization henceforth.

Given on this day, 16 June 2023.

(Mr. Kridsada Prasertsuko)

Managing Director
